CHAMPIONSHIPS FOR THE DISABLED

The championship will be run as an Omnium across all categories.

In order to fairly compare riders with different disabilities, the following formula will be used to compare performances.

Each category of disability has a current World Best time for the 200m Flying Start, 1 km Standing Start and 3000m Standing Start. The competitors performance measured as a percentage of the World Best will be recorded as a figure to 3 decimal points. The competitors points gained in each of the three distances will be added together and the competitor with the highest total of points will be awarded the championship, the second highest, the silver medal and third highest the bronze.

In the case of a tie for position the points gained in the 1km SSTT will determine the position.

For example

Rider A CP4

	World Record	time achieved	Points
